"Foley's Honey and Tar" is the most pleasant and efficient remedy for coughs and colds that I ever saw," writes Wm. Jones, El Dara, Ill. Sold everywhere.—adv.

INDIGESTION DUE TO WEAK NERVES

Maine Woman Describes Nervous Trembling in Her Stomach After Eating.

There is a form of stomach trouble in which there is no organic disease but in which the digestion is disturbed because of the weakness of the nerves that control it. This is known as nervous dyspepsia and is remedied by toning up the entire nervous system.

A severe shock, grief, or prolonged worry will affect these nerves so that the process of digestion is retarded, gas forms and often presses on the heart, causing pains in that region, and sour risings in the throat are frequent.

Mrs. Mary Viney of No. 28 Brattle street, Portland, Me., was in an extremely nervous condition for two years. "At times," she says, "I would tremble all over and could not hold anything steady in my hands. After eating I had a nervous trembling in my stomach. I had sour stomach and nausea. I was dizzy a great deal and did not know what a good night's rest was. My circulation was so poor that I was cold on the hottest day."

"After trying other medicines without benefit I read about Dr. Williams' Pink Pills and before I had taken them a week I was better. The trembling sensations went away. The improvement continued and I had no more indigestion and heartburn. I can eat a good meal now without distress afterward. My circulation is good and I no longer have dizzy spells. I cannot say too much for Dr. Williams' Pink Pills."

These pills are a tonic for the blood and nerves. They correct nervous dyspepsia because they revitalize the nerves that control the digestive processes. They are also useful in sick and nervous headache, neuralgia, sciatica and neuritis.

Get a sixty-cent box of Dr. Williams' Pink Pills from your own drugist to-day and write the Dr. Williams' Medicine Co., Schenectady, N. Y., for a copy of the free booklet, "Diseases of the Nervous System."—adv.

"A COMMON COLD DESERVES YOUR PROMPT ATTENTION"

TAKE FATHER JOHN'S MEDICINE

"A common cold deserves your immediate and serious attention." So writes a well-known physician, in pointing out the danger of neglecting a cold. "Early treatment of a cold will spare you days of suffering and danger," he says. Doctors will tell you that colds are very likely to develop into serious and even fatal diseases if they are neglected. Many doctors prescribe Father John's Medicine because they know it has had over 67 years of success for colds and coughs. It builds new strength to throw off the cold and prevents its development into more serious trouble. No drugs—all pure food.—adv.

Dr. Wilfred Canton, who recently returned to this city after completing his course at the Palmer School of Chiropractic, left to-day for Boston, after passing several weeks visiting with his mother on Maple avenue. Dr. Canton expects to establish a practice in the east soon.

Motorists who have occasion to use the city streets after dark have been protesting lately against the searchlight on the one-man car operating between Barre and Jones brothers. They claim that with the car parked on the Main street fork a car coming down Washington street is utterly blinded, rendering the Elm street crossing doubly dangerous. The other point where the danger of blinding the motorist occurs is at the Jones brothers' stop, where the sudden dazzle of the light makes it almost impossible to see the road on the curve or to see a pedestrian. Several narrow escapes have been related and the thought is expressed that a dimmer might be placed on the car light.

COAL NEWS

We strongly urge the use of our Economy Coal, also Pea and Buckwheat sizes of Anthracite, believing the same to be absolutely necessary to supplement such supplies of the common sized Coal as we will be likely to secure this Winter. We are not in the position where we can buy just what Coal we want but have to buy what we can get, and even then there won't be enough.

During this shortage it is our policy to distribute what Coal we receive amongst as many of our customers as possible so as to avoid suffering. If those of them having no Coal will advise us we will do our best to get them some.
